Low Voltage Power Panel

Built for Electrical Contractors

As an electrical contractor, you face industry challenges like cost overruns and must-meet installation schedules. These issues may seem like par for the course, but they don't have to be.

Meet EntellEon, the modular power panel platform for industrial and commercial power distribution and protection systems—that's built for you.

With EntellEon, installation is faster and requires half the labor, and configurations are flexible. Unplanned upgrades or incorrectly-wired power feeds become problems of the past with a solution that helps you deliver faster, more responsive service to your customers.

Meet Your Challenges with the EntellEon Solution.

YOU NEED TO	HOW ENTELLEON BECOMES THE SOLUTION
<p>MEET CONSTRUCTION AND INSTALLATION DEADLINES</p>	<ul style="list-style-type: none"> • Real time shipment tracking through empower • Modular packaging helps protect the equipment during shipping and storage • Hinged side covers standard for all configurations for increased gutter space • 3 width and 4 height configurations simplify design and installation • Plug-in circuit breaker installation helps faster system de-energize and circuit breaker inspection • Single person¹ installation saves time and labor costs
